Now you're in Bansko!

A year-round resort, Bansko charms every visitor with its broad spectrum of available sporting and cultural activities. No matter what you're after, calm relaxation, enjoyment, of adrenaline-driven winter adventures, Bansko can offer you the best. Its popular slogan, "Unlimited ski and fun", says it all.

Bansko in the international media

National Geographic rated Bansko among the 10 best tourist destinations in the world, recommended for winter vacations.

“Get more skiing and snowboarding for your buck in Bansko. Considered one of Europe’s best snow-sport bargains, the Pirin Mountain gateway town is particularly popular with first-time skiers and families.”

The Telegraph

Bansko: N° 1 family ski destination in Europe

A new British rating, quoted in November 2019 by two of the most popular media outlets in the UK, Daily Mail and Daily Telegraph, puts Bansko on top as the Most favorable family ski destination in Europe. The report was done by the specialized financial online platform Post Office, comparing 25 top European winter resorts.

“A great place to ski of all levels with as much snow as you can take, beautiful scenery, fabulous views of the Pirin mountain, lots of places to eat and drink after a day on the slopes with a great party atmosphere or not, whatever takes your fancy...”

Daily Mail

“For a week away skiing with the family Bulgaria is where Britons will find the best value...”

Revealed: Bansko in Bulgaria is the best value-for-money place in Europe for a family skiing holiday while Italy boasts the highest number of best value resorts. Research has revealed a one-week ski holiday for a family of four in Bansko, Bulgaria, costs 1530 GBP.

Daily Mirror ranked Bansko 7th in Top 15 Best Ski Resorts in the world

“Bulgaria’s premier ski resort has everything you need for a fun-filled, budget-friendly ski holiday. As for the skiing itself, expect beautiful scenery, plenty of runs for everyone from beginners to the more advanced, and fast lifts to the mountains so you can make the most of your time out there.”

World Ski Awards: The number of trophies for Bansko keeps growing!

For many years now the prestigious international prize "Bulgaria's Best Ski Resort" stays occupied by a single resort. After winning numerous competitions in a row, Bansko proved itself as a dominant category leader at the World Ski Awards ceremony, held each year in Kitzbuhel, Austria. The World Ski Awards, established by World Travel Awards, is also popular as “the Oscars of the travel industry” and has earned great media coverage and recognition since its start in 2013. Anonymous voting by a voting panel of over 2 million people of 143 countries make this one of the most objective metrics for resort excellence. With such prestigious recognition Bansko deserves a seat in the elite club of most-awarded winter resorts.

Bansko's trophies keep mounting!

Preserved spirit of the past

Bansko is not a one-time destination. People just keep coming here again. And again. Their driving reasons vary a lot - from the great diversity of choices, to the modern extreme winter sports, to the authentic atmosphere and history in the old part of town - a quarter with cobblestone streets and hundred-year old houses. In the long list of local attractions, don't miss the aged red wine and the delicious dishes of traditional Bansko cuisine.

One Season Card **THREE DAYS**

OF FREE SKIING in Two Top Resorts

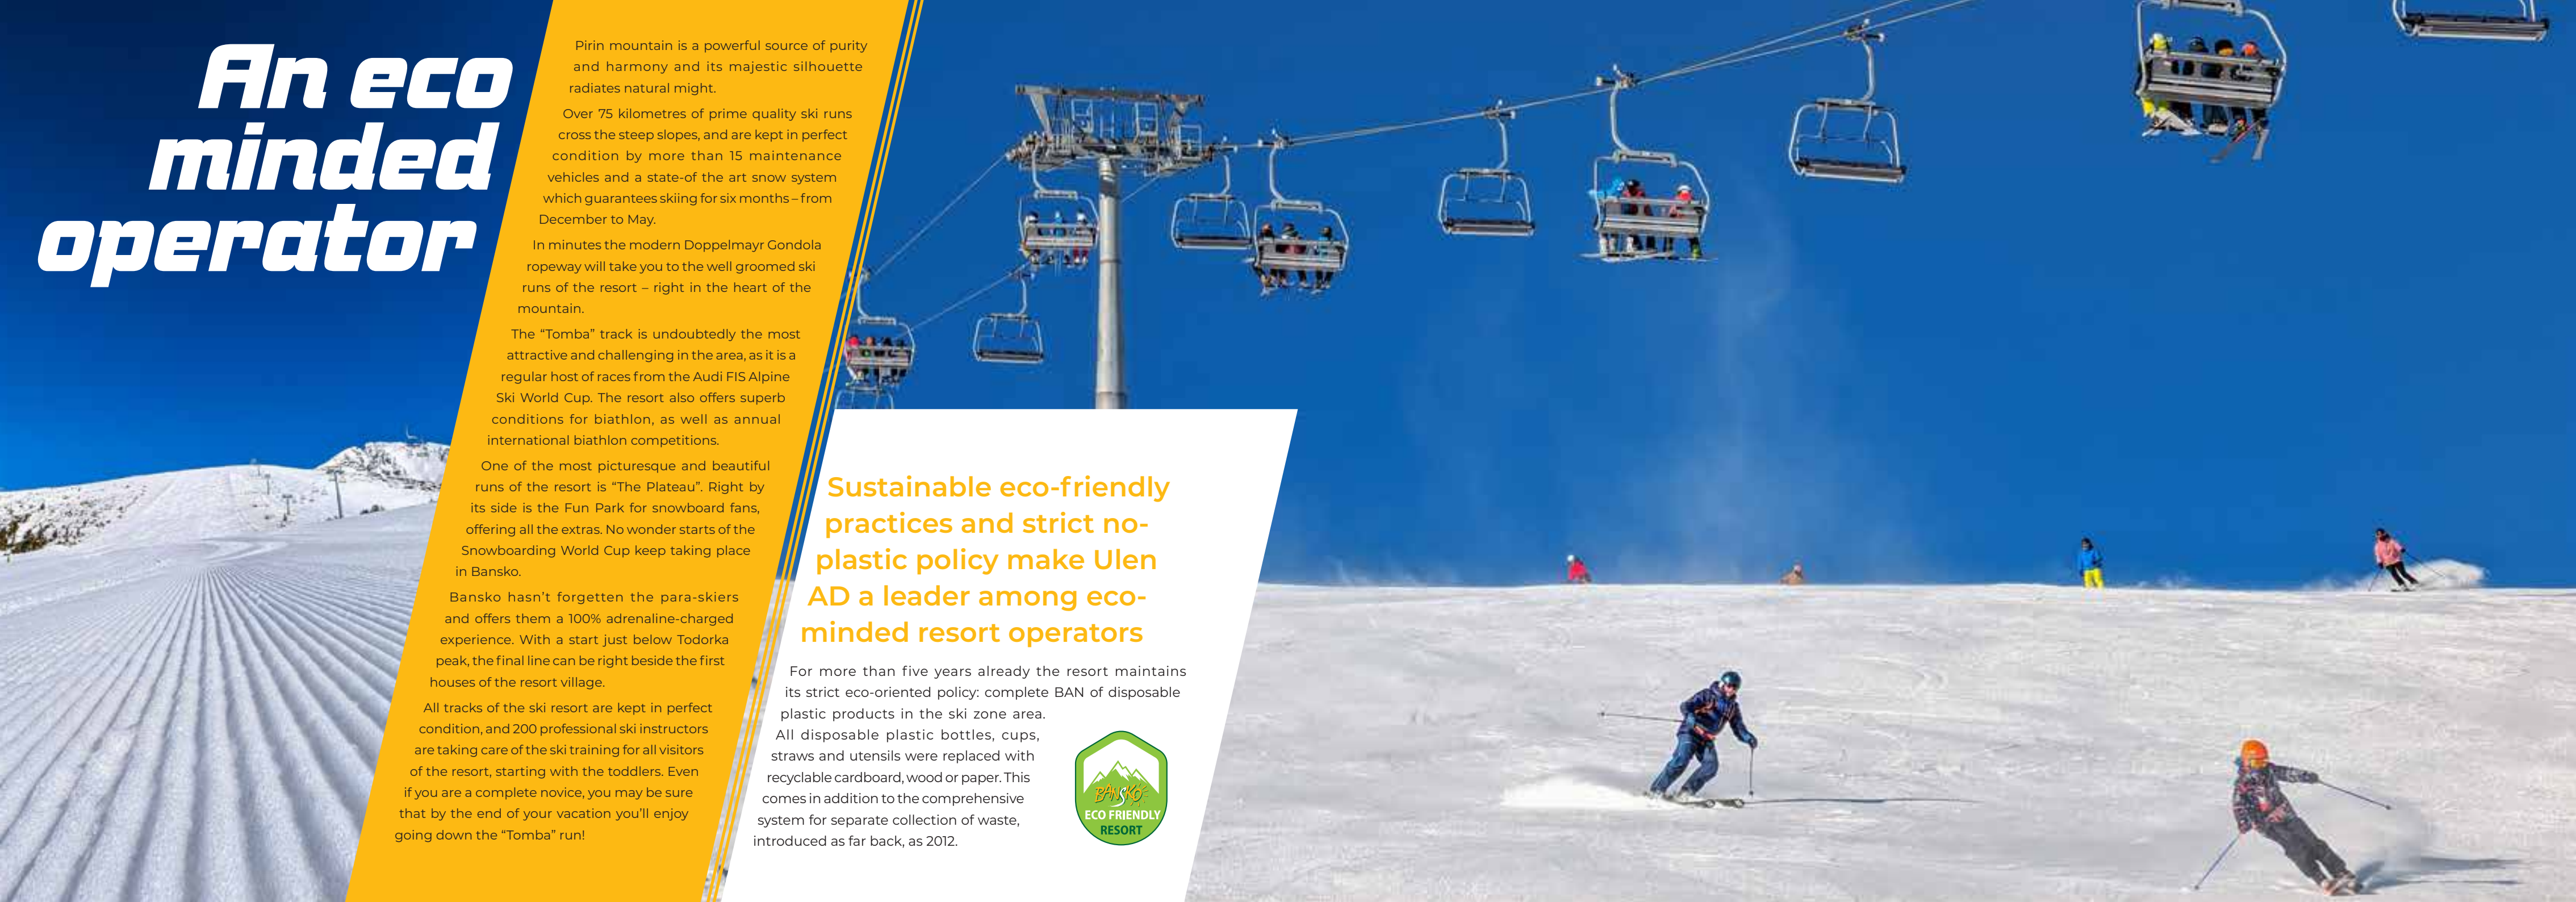

Verbier is located in the center of the four valleys in Switzerland, one of the largest ski areas in Europe. It is the dream of every winter sports fan, and the ski area extends from 1500 to 3330 m above sea level. 93 lifts provide access to runways with a total length of 412 km. The place is also a paradise for freeriding and for those who prefer to jump in the fun parks. There are 8 ski schools in Verbier and the resort is extremely suitable for family vacations, away from the noise of the crowds.

For Verbier: with partner hotels of TélEVERbier SA
For Bansko: through Balkan Holidays travel agency

In March 2019 Bansko and the top Swiss winter resort, Verbier, signed a collaboration agreement, which gives a great added benefit to all winter sports enthusiasts. Under this friendly deal all season pass holders of each of the two resorts can take advantage of THREE days absolutely FREE ski or snowboard in the other resort!

An eco minded operator

Pirin mountain is a powerful source of purity and harmony and its majestic silhouette radiates natural might.

Over 75 kilometres of prime quality ski runs cross the steep slopes, and are kept in perfect condition by more than 15 maintenance vehicles and a state-of the art snow system which guarantees skiing for six months – from December to May.

In minutes the modern Doppelmayr Gondola ropeway will take you to the well groomed ski runs of the resort – right in the heart of the mountain.

The “Tomba” track is undoubtedly the most attractive and challenging in the area, as it is a regular host of races from the Audi FIS Alpine Ski World Cup. The resort also offers superb conditions for biathlon, as well as annual international biathlon competitions.

One of the most picturesque and beautiful runs of the resort is “The Plateau”. Right by its side is the Fun Park for snowboard fans, offering all the extras. No wonder starts of the Snowboarding World Cup keep taking place in Bansko.

Bansko hasn't forgotten the para-skiers and offers them a 100% adrenaline-charged experience. With a start just below Todorka peak, the final line can be right beside the first houses of the resort village.

All tracks of the ski resort are kept in perfect condition, and 200 professional ski instructors are taking care of the ski training for all visitors of the resort, starting with the toddlers. Even if you are a complete novice, you may be sure that by the end of your vacation you'll enjoy going down the “Tomba” run!

Sustainable eco-friendly practices and strict no-plastic policy make Ulen AD a leader among eco-minded resort operators

For more than five years already the resort maintains its strict eco-oriented policy: complete BAN of disposable plastic products in the ski zone area. All disposable plastic bottles, cups, straws and utensils were replaced with recyclable cardboard, wood or paper. This comes in addition to the comprehensive system for separate collection of waste, introduced as far back, as 2012.

Winter sport destination for all levels of skill

In the last two decades Bansko grew into one of the most attractive and popular winter sport destinations in the entire Eastern Europe. Apart from establishing itself as a regular host of the FIS World Cup circuit, it offers great snow conditions and many hours of sunshine in a stable, 4-5 month-long season. It's easy to see why more and more skiers and snowboarders from all levels of skill are attracted by Bansko.

Here Ski legends feel at home

An endless list of global top ski stars of different generation have competed here, visited as special guests and remained friends of Bansko. Just ask World Cup winners Lindsey Vonn, Anna Fenninger and Marcel Hirscher how winning a race in Bansko left a smiling moment in their glorious careers. Lizzy Goergl, Anja Paerson, Lara Gut, Aksel Lund Svindal, Ted Ligety, Lindsey Vonn and Anna Fenninger have also filmed special TV ads for Bansko World Cup events.

Some of all-time ski greats are also frequent visitors and friends of Bansko. From Alberto Tomba to Marc Girardelli, don't be surprised if you see a legendary champion of the white sport sitting next to you in the restaurant or relaxing in the stylish lobby of Kempinski Hotel Grand Arena Bansko.

Friendly service and rich menu make Bachvite (The Barrels) a favorite spot for people who want to relax longer on Banderishka poliana and have a hearty meal.

Bla-Bla Restaurant

Tasty dishes will satisfy every palate, especially in combination with selected white and red wines. The restaurant is conveniently located on Shiligarnika, close to a few ski runs.

Umbrella bars

Inflatable, see-through constructions that reveal wonderful view to the ski runs and the entire mountain. There's nothing better than a cup of hot tea, cold beer or something stronger in one of these bars on a sunny day in snowy Pirin mountain.

Cafe Chaynika

Cozy cafe, nestled on Banderishka poliana, where a hot cup will recharge you energy for more adventures on the snowy tracks.

Perfect grooming 24/7

The existence of crisp white snow with excellent quality on 80 km of marked ski runs and ski roads is possible through regular maintenance by 15 Kassbohrer and Leitner snow-grooming machines. Snow is guaranteed from December until May by more than 400 TechnoAlpin snow cannons. Groomed around the clock, the slopes allow you to enjoy the excitement of perfect skiing conditions at any given time. Bansko offers its guests a unique 16-kilometer uninterrupted ski run with a vertical drop of 1600 m, starting from Todorka peak at the highest point of the skiing centre, all the way down to the base station of the Gondola lift at the outskirts of town.

Unforgettable vacation for the entire family

Offering an overall alpine ski experience, Bansko has it all – great mountain views, deep powder and impeccably groomed pistes for skiers of all levels. The resort offers everything you are looking for in a perfect family holiday - amusement for the kids with safe attractions, and lots of action and adrenaline fun for teenagers and adults.
